

# Crosswalk Etiquette

## At a Signaled Crosswalk

Always cross when a walk signal prompts movement (not before or after).

At a timed crosswalk, make sure there is enough time to cross the street before entering the crosswalk (i.e., do not cross with a few seconds left on the timer).

### **Stop, look, listen.**

Look both ways before crossing the street, even during a walk signal.

## At an Un-signalized Crosswalk

- Stop, look, listen.
- Pay attention to your surroundings.

## For Any Crosswalk (Signaled or Un-signalized)

- Utilize crosswalks (do not “jaywalk”).
- Children should not cross alone.
- Make eye contact with surrounding motorists before crossing.
- Children riding bikes should walk their bikes across a crosswalk.
