

NOTICE OF PUBLIC MEETING

HAZARD MITIGATION PLANNING MEETING

The City of Sugar Land is working to update the 2020 Hazard Mitigation Plan (Plan). The goal of the Hazard Mitigation Plan is to minimize or eliminate the long-term risk to human life and property from known hazards by identifying and implementing cost-effective mitigation actions. FEMA requires a Hazard Mitigation Plan to be updated every five years. The City has established a Steering Committee that is multi-disciplined and represents the entire planning partnership to update the Plan. The Steering Committee will meet bi-monthly through the course of this update process. The Steering Committee meetings are open to the public. Residents, neighboring communities, and stakeholders are invited to participate in the Plan update and public comments will be received at Steering Committee meetings.

The City of Sugar Land will hold a Steering Committee Meeting for the 2020 Hazard Mitigation Plan Update on **Thursday, October 17th 2019 from 11am – 1pm** in the City Council Chambers located at the City of Sugar Land City Hall 2700 Town Center Blvd., Sugar Land Texas 77478.

The purpose of the October 17th meeting is to discuss and establish the mission statement, goals and objectives, critical facilities, public involvement strategy, and solicit information from key stakeholders, City staff, and other governmental and non-governmental stakeholders with a vested interest in the outcome of the Hazard Mitigation Plan Update.
