CR-05 - Goals and Outcomes

Progress the jurisdiction has made in carrying out its strategic plan and its action plan. 91.520(a)

This could be an overview that includes major initiatives and highlights that were proposed and executed throughout the program year.

During Program Year (PY) 2017, the City of Sugar Land followed initiatives incorporated into its Fourth Annual Action Plan of the current five-year Consolidated Plan. Each year, the City of Sugar Land works to ensure that the CDBG program maximized the funding allocation and addressed all of the regulatory requirements of the program. The Annual Action Plan's goals were to:

- Continue to provide funding to public service subrecipients that serve Sugar Land residents;
- Encourage new public service subrecipients to apply for and receive CDBG funding to assist residents of Sugar Land;
- Continue to provide minor rehabilitation to deteriorating owner occupied housing and promote increased accessibility for elderly and disabled homeowners; and
- Complete infrastructure improvements in Covington Woods.

In order to meet these goals and objectives, the City of Sugar Land allocated 15 percent of its PY 2017 CDBG funds to assist local public service agencies that serve residents throughout the City. This funding allocation allowed the City to assist a total of three public service agencies providing literacy and education, counseling to abused children, and senior food assistance. While the agencies were successful in providing services to residents, two agencies faced a few program challenges.

Child Advocates of Fort Bend fell short of meeting their beneficiary numbers and were unable to expend all of their funding allocation. This was the second year for funding this program and projections were again estimated. Due to the type of services provided as part of the Court Appointed Special Advocates program, the number of clients served fluctuates each year.

The Literacy Council of Fort Bend County served 59 persons, significantly better than its goal of serving 45 illiterate adults by providing General Educational Development (GED) and English as a Second Language (ESL) classes for residents. In PY 2017, the agency expended all of its allocation due to assisting duplicate clients and was able to serve 131% of its proposed number of beneficiaries.

The Fort Bend Seniors Meals on Wheels program met and far exceeded its goal of serving the elderly with prepared home-delivered meals. Indigent seniors and disabled persons received hot meals, frozen meals and emergency meals throughout the program year.

In serving the needs of the elderly, the agency expended 99% of its annual allocation.

During PY 2017, the City of Sugar Land also completed the Covington Woods Street and Sidewalk Improvements that included the replacement of street and sidewalks to increase accessibility within the Covington Woods neighborhood.

The City of Sugar Land’s housing rehabilitation activities were carried out by the Fort Bend CORPS. This non-profit agency rehabilitated eight (8) homes for low- to moderate-income residents. Two of these homes were located in the City’s largest target area, Mayfield Park. During the program year, the agency completed eight of its proposed nine beneficiaries and fell short of expending all of its funding.

Comparison of the proposed versus actual outcomes for each outcome measure submitted with the consolidated plan and explain, if applicable, why progress was not made toward meeting goals and objectives. 91.520(g)

Categories, priority levels, funding sources and amounts, outcomes/objectives, goal outcome indicators, units of measure, targets, actual outcomes/outputs, and percentage completed for each of the grantee’s program year goals.

Goal	Category	Source / Amount	Indicator	Unit of Measure	Expected – Strategic Plan	Actual – Strategic Plan	Percent Complete	Expected – Program Year	Actual – Program Year	Percent Complete
Abused & Neglected Children	Public Services	CDBG: \$4,000	Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	250	117	47%	10	5	50%
Domestic Violence Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	150	0	0.00%			
Employment Training	Public Services	CDBG: \$12,840	Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	400	178	45%	45	59	131%

Energy Efficiency Improvements	Affordable Housing		Homeowner Housing Rehabilitated	Household Housing Unit	40	0	0.00%			
General Public Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	500	0	5.60%			
Handicapped Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	25	0	0.00%			
Health Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	200	22	11.00%			
Lead Based Paint/Lead Hazard Screening	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	5	0	0.00%			
Legal Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	25	0	0.00%			
Mental Health Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	40	0	0.00%			
Rental Housing Subsidies	Homeless		Public service activities for Low/Moderate Income Housing Benefit	Households Assisted	10	0	0.00%			
Senior Services	Public Services	CDBG: \$24,500	Public service activities for Low/Moderate Income Housing Benefit	Households Assisted	200	127	64%	20	55	275%

Single Family Rehabilitation Program	Affordable Housing	CDBG: \$78,440	Homeowner Housing Rehabilitated	Household Housing Unit	40	26	65%	9	8	89%
Park Improvements	Non-Housing Community Development		Public Facility or Infrastructure Activities other than Low/Moderate Income Housing Benefit	Projects Completed	2	2	100%			
Street Improvements	Non-Housing Community Development	CDBG: \$108,787	Public Facility or Infrastructure Activities for Low/Moderate Income Housing Benefit	Projects Completed	2	1	50%	1	1	100%
Substance Abuse Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	20	0	0.00%			
Transportation Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	50	0	0.00%			
Youth Services	Public Services		Public service activities other than Low/Moderate Income Housing Benefit	Persons Assisted	150	0	0.00%			

Table 1 - Accomplishments – Program Year & Strategic Plan to Date

Assess how the jurisdiction’s use of funds, particularly CDBG, addresses the priorities and specific objectives identified in the plan, giving special attention to the highest priority activities identified.

The City of Sugar Land’s highest priorities are delineated in the PY 2014-2018 Consolidated Plan and include a mix of public service, public facilities and housing objectives determined as such through the open public input process. During the 2017 Program Year,

Sugar Land was able to address several of the high priority objectives through the use of CDBG funds, street and sidewalk improvements, senior services, and services to abused and neglected children. During the fourth year of the five-year Consolidated Plan, Sugar Land was able to focus on a few key high priority objectives with the limited resources available. The priorities established in the Consolidated Plan have been evaluated annually and will remain consistent for the final year remaining in the Consolidated Plan. With the existing nonprofit capacity within the County, the City of Sugar Land has had limited response to provide many of the services included in the Consolidated Plan.

CR-10 - Racial and Ethnic composition of families assisted

Describe the families assisted (including the racial and ethnic status of families assisted).

91.520(a)

	CDBG
White	70
Black or African American	12
Asian	38
American Indian or American Native	1
Native Hawaiian or Other Pacific Islander	3
Multi Racial	3
Total	127
Hispanic	21
Not Hispanic	106

Table 2 – Table of assistance to racial and ethnic populations by source of funds

Narrative

The City of Sugar Land has completed the table above to accurately reflect the racial categories captured in IDIS.

The City of Sugar Land is a diverse city with a population that is 44% White, 7% African American, 35% Asian, 11% Hispanic and 3% other races. The breakdown of services provided to residents of the City of Sugar Land accurately reflects the demographics of the city and the needs within the community.

CR-15 - Resources and Investments 91.520(a)

Identify the resources made available

Source of Funds	Source	Resources Made Available	Amount Expended During Program Year
CDBG	CDBG	283,687	247,098

Table 3 - Resources Made Available

Narrative

During PY 2017, the City of Sugar Land leveraged approximately \$35,000 in general funds toward the goals of the CDBG program. CDBG funding does not specifically set match requirements; however, the City of Sugar Land works to leverage substantial dollars to extend the services available to low and moderate income persons. These matching funds consisted of general administrative funds and included staff salaries for the program and the associated CDBG infrastructure projects.

Identify the geographic distribution and location of investments

Target Area	Planned Percentage of Allocation	Actual Percentage of Allocation	Narrative Description
Barrington Place/ Ashford Lakes/ Oak Hollow	0		
Covington Woods	38	38	Street and Sidewalk Improvements
Englewood Place	0		
Grants Lake Multifamily	0		
Lakefield	0		
Mayfield Park	0		
Prison Staff Housing	0		
The Highlands/ Edgewater	0		

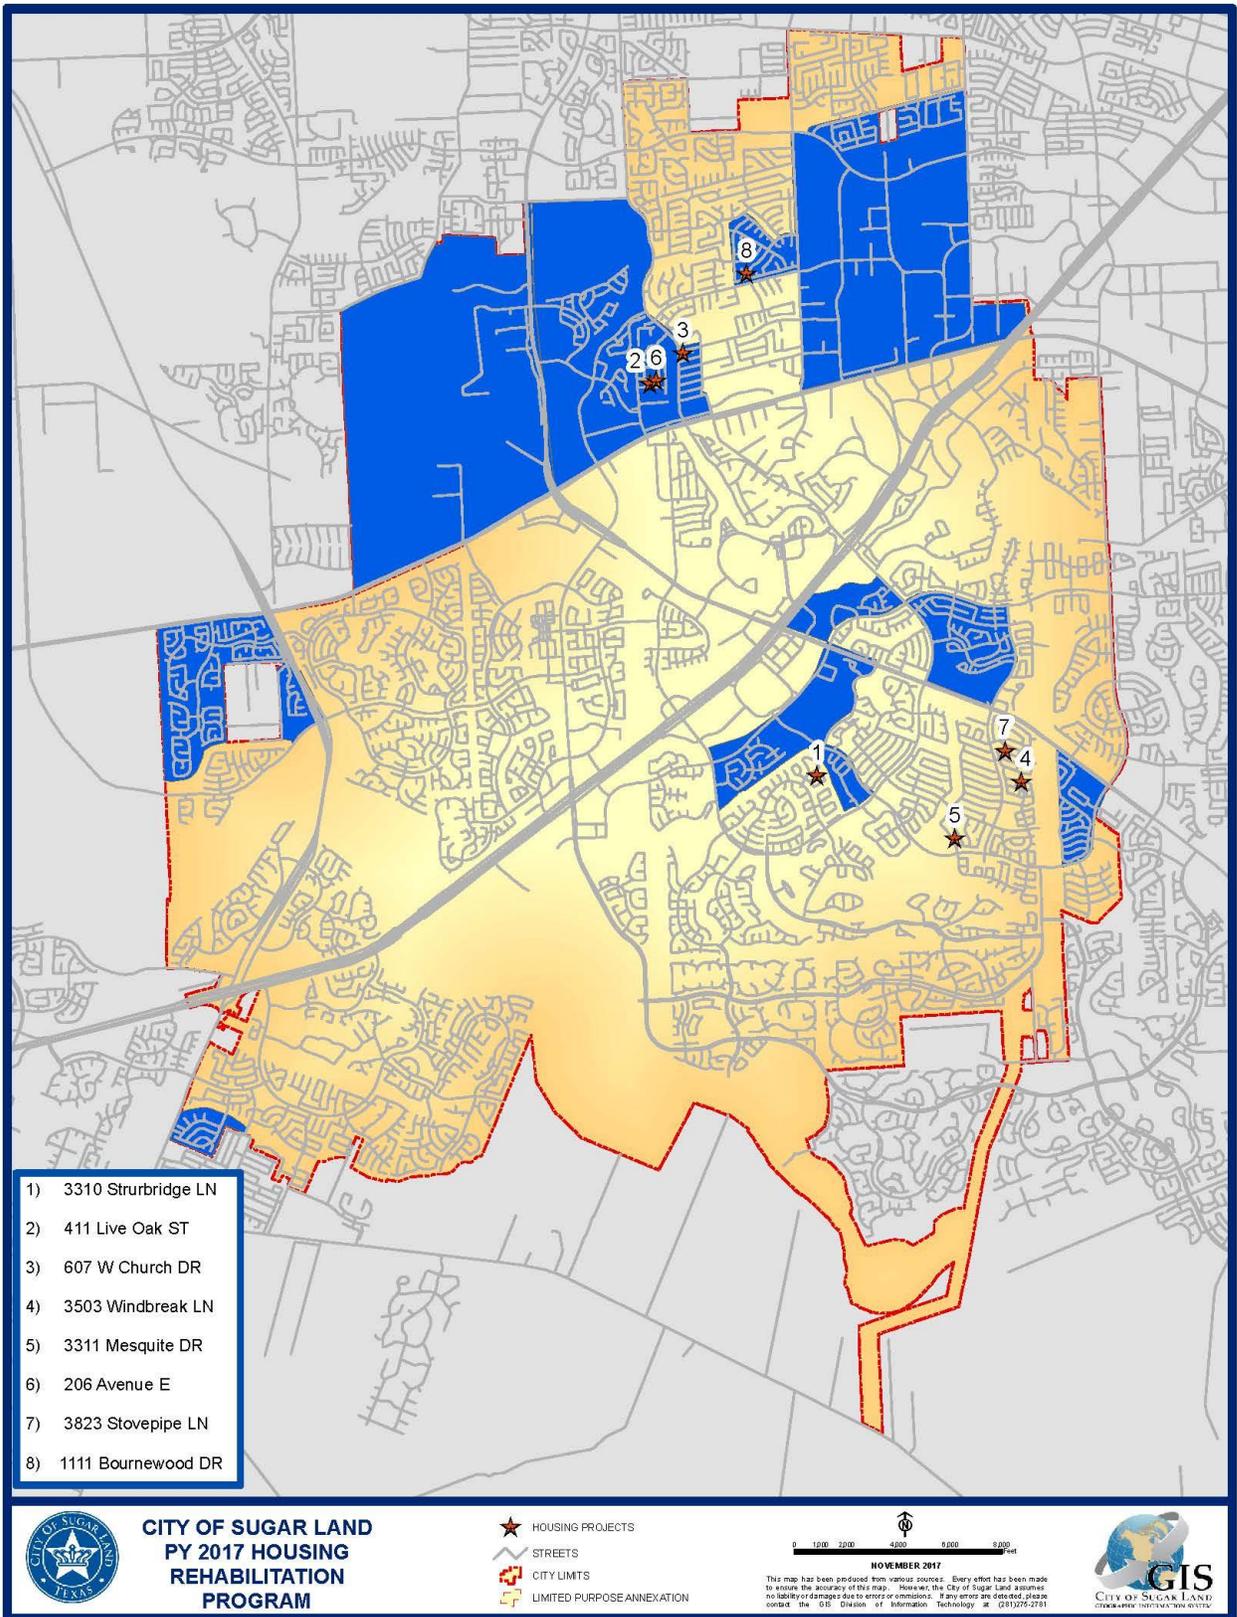

Table 4 – Identify the geographic distribution and location of investments

Narrative

Public service and housing rehabilitation programs serve the general low- to moderate-income residents of Sugar Land. However, public facilities projects completed during Program Year 2017 focused on Street and Sidewalk Improvements located in the Covington Woods Target Area (Census Tract/Block Group 672302-2). Resources were committed to ensure that the residents of the Covington Woods area had adequate streets and sidewalks within their neighborhood.

The Fort Bend CORPS rehabilitates homes for low- to moderate-income owners throughout Sugar Land, but the vast majority of the homes served to date have been in Mayfield Park.

Through the efforts of the Fort Bend CORPS and the City of Sugar Land, the Mayfield Park neighborhood is being provided decent housing and a more livable environment for all of its residents. This year, the distribution of households receiving housing rehabilitation services included multiple neighborhoods. A map denoting the location of each of the eight (8) homes rehabilitated during PY 2017 is attached below.

The City of Sugar Land makes every effort to maximize its public service agencies' involvement within the community, and in so doing, the City attempts to utilize the maximum allowable funding for public service agencies each program year to assist residents in need throughout the city limits.

The Literacy Council of Fort Bend County's program provides literacy education to the immigrant population and to those adults with reading limitations. This service continues to enhance the overall literacy of Sugar Land and the employability of those residents receiving literacy education. The program has been a successful anti-poverty program for those who previously were unable to secure employment at a livable wage due to language and reading barriers.

The Fort Bend Seniors Meals on Wheels program has improved the living conditions of low- to moderate-income homebound seniors throughout the City of Sugar Land through the delivery of prepared meals. This service increases the senior's ability to age in place as they would otherwise not have nutritious meals and would often not eat for several days.

Child Advocates of Fort Bend uses CDBG funds to provide court appointed advocacy for abused children residing throughout the City. Through these services, abused children have advocates that are able to speak on their behalf during court hearings.

As a result of this funding, the neighborhoods with the greatest need, including Mayfield Park/The Hill and Covington Woods, and the residents with the greatest needs, the youth, the elderly, the illiterate, and the abused, have benefited greatly by the services funded through the CDBG program. As these neighborhoods benefit and the residents in need of assistance benefit, the City as a whole benefits as well.

Leveraging

Explain how federal funds leveraged additional resources (private, state and local funds), including a description of how matching requirements were satisfied, as well as how any publicly owned land or property located within the jurisdiction that were used to address the needs identified in the plan.

Through its CDBG allocation, the City of Sugar Land is able to contribute only a small portion to each agency's overall budget. Public service agencies must therefore use private donations and other resources to leverage their CDBG funding. Due to the small amount of funding received each year, none of the prioritized activities are solely funded with federal dollars. Through their independent fundraising, which includes state, foundation and private dollars, subrecipients leverage approximately \$1.96 million towards services for local Sugar Land residents. The CDBG funding to the Fort Bend CORPS has allowed the agency to also secure additional private funds and volunteer labor through their Hearts and Hammers program to provide housing rehabilitation to deteriorating homes within Sugar Land.

CR-20 - Affordable Housing 91.520(b)

Evaluation of the jurisdiction's progress in providing affordable housing, including the number and types of families served, the number of extremely low-income, low-income, moderate-income, and middle-income persons served.

	One-Year Goal	Actual
Number of Homeless households to be provided affordable housing units	0	0
Number of Non-Homeless households to be provided affordable housing units	0	0
Number of Special-Needs households to be provided affordable housing units	0	0
Total	0	0

Table 5 – Number of Households

	One-Year Goal	Actual
Number of households supported through Rental Assistance	0	0
Number of households supported through The Production of New Units	0	0
Number of households supported through Rehab of Existing Units	9	8
Number of households supported through Acquisition of Existing Units	0	0
Total	9	8

Table 6 – Number of Households Supported

Discuss the difference between goals and outcomes and problems encountered in meeting these goals.

The City of Sugar Land is not a recipient of Federal HOME or ESG funding and therefore is limited in the development of new affordable housing options or the provision of housing to assist homeless populations. The City targets funding to the preservation of existing affordable housing through the funding of a housing rehabilitation program that assisted eight (8) families during the 2017 Program Year. Of the families that received assistance, three (3) were moderate income and five (5) were very low income.

Discuss how these outcomes will impact future annual action plans.

The City of Sugar Land has a well-established relationship with the Fort Bend CORPS to provide rehabilitation assistance for low income families. As resources have become more limited, the City works with Fort Bend CORPS to refine its outreach program to ensure those individuals with the greatest need are aware of the program and are able to access assistance. This will ensure that assistance is provided to residents least likely to apply before their homes reach a higher level of disrepair.

Include the number of extremely low-income, low-income, and moderate-income persons served by each activity where information on income by family size is required to determine the eligibility of the activity.

Number of Households Served	CDBG Actual	HOME Actual
Extremely Low-income	5	0
Low-income	0	0
Moderate-income	3	0
Total	8	0

Table 7 – Number of Households Served

Narrative Information

Of the eight (8) families that received assistance, three (3) were moderate income, and five (5) were extremely low income. Three quarters of the families assisted are elderly, disabled, or a single female head of household and often are in need of modifications to their homes to allow for greater accessibility and the homeowner’s ability to age in place. This is reflective of the City’s desire to provide services to families with the greatest need for assistance.

CR-25 - Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Despite not receiving an ESG allocation, the City of Sugar Land has worked with the Coalition for the Homeless Houston/Harris County, Fort Bend Independent School District, and Continuum of Care participants to coordinate efforts to address the needs of homeless persons. Staff encourage the submission of funding requests from Continuum of Care participants and consult with providers of health, mental health and service agencies, in addition to the Sugar Land Police Department and Fort Bend ISD Homeless Coordinator to better assess the community need. In addition, the City of Sugar Land is supportive of the efforts of Fort Bend County to assist homeless persons throughout the County.

Addressing the emergency shelter and transitional housing needs of homeless persons

The City of Sugar Land does not have any emergency shelters or transitional housing specifically located within its city limits. While the City has funded emergency shelter efforts for victims of domestic violence in the past, the small allocation of funding received has been a deterrent to many organizations seeking a more substantial allocation. In addition, the difficulties in complying with federal funding requirements have led to a lack of interested homeless providers. The lack of qualified and interested service providers restricts the amount of services available to the community.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

The City's primary homeless prevention activities during PY 2017 were the rehabilitation of deteriorating owner-occupied housing for low and moderate income residents, including elderly and disabled persons. Without ESG funds, the City does not provide specific homeless prevention funding. The Fort Bend CORPS provides housing rehabilitation that can lengthen the life span of a structure, thus making it habitable for those who would otherwise become homeless if their property were to be condemned. In utilizing the PY 2017 CDBG funds, the Fort Bend CORPS provided minor housing rehabilitation to eight (8) low- to moderate-income

owner-occupied homes within the City of Sugar Land. The City also encourages agencies to participate in the Houston region Continuum of Care process and to apply to the County and State for ESG funding.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Despite working with the Coalition for the Homeless Houston/Harris County and Fort Bend ISD, identifying literally homeless and more specifically chronically homeless persons from the Sugar Land area can be difficult as many homeless families are doubled up and not literally homeless. To ensure services to families in need of housing, the City of Sugar Land continued to discuss the process of coordinated intake with the Coalition for the Homeless Houston/Harris County. While the coordinated intake and referral system is available for implementation, referrals for residents of Sugar Land have been difficult to document, making it difficult for the City to substantiate need.

Persons being discharged from publicly funded institutions such as the criminal justice system are eligible for reentry services from the facility at which they are being discharged. Program assistance focuses on key factors that include housing, employment, health care, transportation, and financial resources. These efforts are coordinated with local service providers to ensure a complete approach to reentry.

CR-30 - Public Housing 91.220(h); 91.320(j)

Actions taken to address the needs of public housing

The City of Sugar Land does not have any public housing located within its city limits and does not have a public housing authority that serves its residents.

Actions taken to encourage public housing residents to become more involved in management and participate in homeownership

Not applicable.

Actions taken to provide assistance to troubled PHAs

Not applicable.

CR-35 - Other Actions 91.220(j)-(k); 91.320(i)-(j)

Actions taken to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment. 91.220 (j); 91.320 (i)

The City of Sugar Land has made continuous efforts to better inform the community regarding diverse housing options and their benefits. The City of Sugar adopted an updated Land Use Plan in 2018, which documents the land use policies that guide development within the City. This update is a multi-phase project that includes numerous opportunities for public input. The update process was on-going during PY 2017 and concluded with the finalization of the vision, goals and policies associated with the Land Use Plan and development within the City.

While the City of Sugar Land is not a recipient of HOME dollars, approximately 25% of the City's annual CDBG allocation has historically been allocated to fund minor housing rehabilitation. With this assistance, low income individuals and their families receive assistance for the repair of their home to help retain affordable housing options currently available.

Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

The largest obstacle to meeting the needs of underserved populations is the limited available funding. Each year, the amount of available funding is reduced, therefore requiring the City to reduce the allocation to service agencies that provide assistance to low income residents. The City of Sugar Land works with service providers to better leverage their resources to meet the needs of underserved populations.

The next most concerning obstacle is the lack of qualified and interested service providers. Unfortunately, the difficulties in complying with federal funding requirements have led to a lack of interested homeless providers. Despite the City's outreach to service providers, a simplified application process, and increased technical assistance, the lack of qualified and interested service providers restricts the amount of services available to the community.

In order to address these obstacles, the City of Sugar Land collaborates internally with its departments and funds strong community organizations focused on assisting underserved populations. In working with the Police Department, Parks Department, and Engineering Department, the Environmental and Neighborhood Services Department is able to better assess and meet the needs of underserved communities. By continuing to fund well-established community organizations, the City is able to assist vulnerable populations. Through these collaborative efforts, populations at risk, including abused children, the elderly and disabled persons, receive much needed services.

Actions taken to reduce lead-based paint hazards. 91.220(k); 91.320(j)

The City of Sugar Land is committed to reducing lead hazards. As a result, all housing rehabilitation projects that involve disturbing exterior or interior paint are tested for lead-based paint prior to the rehabilitation. The housing rehabilitation subrecipient contracts with certified lead testers for all lead-based paint tests. When lead-based paint is identified, the appropriate lead hazard control methods are incorporated into the rehabilitation project. During PY 2017 four (4) of the eight (8) homes rehabilitated were built before 1978, but none tested positive for lead-based paint.

The City, through its contract with the Fort Bend CORPS as a housing rehabilitation subrecipient, will continue to provide information to neighborhood organizations, applicants for rehabilitation work and interested residents regarding lead poisoning and hazards and how to identify problems, receive blood tests and access treatment.

Actions taken to reduce the number of poverty-level families. 91.220(k); 91.320(j)

The City of Sugar Land works to ensure that all programs and policies established to support and funded by the CDBG program have a goal of assisting low and moderate income families to prevent the cycle of poverty. Programs and services are intended to provide families with continued opportunities.

To aid in increasing low income families' access to employment, the City of Sugar Land funds the Literacy Council of Fort Bend County's program to provide literacy education to the immigrant population and to low income adults with reading limitations. This service has greatly enhanced the overall literacy of Sugar Land and the employability of those residents receiving literacy education. The program has been a successful anti-poverty program for those who previously were unable to secure employment at a livable wage due to language and reading barriers. Through this goal, 59 persons received assistance during Program Year 2017.

Child Advocates of Fort Bend was able to serve five (5) abused and neglected children during Program Year 2017 with court appointed advocacy services. These services give children and their families an opportunity to heal and move beyond the trauma of their abuse to become more successful adults.

The Home Rehabilitation project was able to provide eight (8) low income families an opportunity to remain in accessible, safe and permanent housing. Housing provides families and particularly children an opportunity to stabilize their lives. Minor housing rehabilitation and accessibility modifications help elderly and disabled persons to remain in their homes.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The Environmental and Neighborhood Services Department of the City of Sugar Land managed the CDBG program during PY 2017. The Assistant Director was the ultimate staff member responsible for the program and reported to the Director who reported to the Assistant City Manager, City Manager, Mayor and City Council. City staff was assigned to oversee the day-to-day operations of the CDBG program, and management consultants were contracted to assist in the implementation of the program and provide technical assistance to city staff. The Finance Department administered the financial reporting, disbursement of funds and management of the award, and the Public Works Department assisted in administering community development projects, including Covington Woods Street & Sidewalk Improvements, to ensure compliance with pertinent construction requirements.

The City of Sugar Land has worked during the 2017 Program Year to continue effective coordination efforts between its internal departments to meet the needs of underserved populations. The Environmental and Neighborhood Services, Engineering, Public Works, Parks & Recreation, and Police Departments coordinate to ensure needs are assessed quickly and effectively. Whether a service, housing, or public facility need, internal referral systems serve to ensure residents of Sugar Land receive assistance needed in a timely fashion for increased safety and security.

Actions taken to enhance coordination between public and private housing and social service agencies. 91.220(k); 91.320(j)

While the City of Sugar Land does not have public housing available, the City is working to coordinate efforts with service agencies to ensure the availability of housing to persons in need. City departments such as the Environmental and Neighborhood Services Department as well as the Sugar Land Police Department coordinate with Fort Bend ISD and regional homeless service providers to identify the needs of homeless persons and help stabilize their lives by finding them proper housing resources.

Identify actions taken to overcome the effects of any impediments identified in the jurisdictions analysis of impediments to fair housing choice. 91.520(a)

To ameliorate the barriers to affordable housing during the 2017 Program Year, the City of Sugar Land committed approximately 25% of the City's annual CDBG allocation to fund minor housing rehabilitation. Low income individuals and their families receive assistance for the repair of their home to help retain affordable housing options currently available.

The City of Sugar Land also worked during PY 2017 to better inform the community regarding diverse housing options and their benefits. The City of Sugar Land adopted an updated Land

Use Plan, which documents the land use policies that guide development within the City. This update is a multi-phase project that includes numerous opportunities for public input. This update process was on-going during PY 2017 and concluded with the finalization of the vision, goals and policies associated with the Land Use Plan and development within the City.

In addition, the City continued to provide information about housing choice and fair housing by distributing brochures to the local libraries and subrecipient agencies receiving CDBG funds. This distribution provides multiple avenues for Sugar Land residents to receive the information.

CR-40 - Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The City of Sugar Land's monitoring strategy is designed to assist staff in fulfilling its regulatory obligation in monitoring subrecipients, including city departments. The purpose for this monitoring strategy is to ensure proper program performance, financial performance and regulatory compliance in accordance with HUD regulations.

Staff and contract consultants have the responsibility to ensure that each subrecipient, including each recipient city department, is adhering to its approved scope of service, budget and schedule of service. Each subrecipient or city department must also abide by the regulatory guidelines set forth by HUD in providing benefits to low- to moderate-income persons and/or eliminating a slum or blighted condition.

The monitoring process is an on-going process of planning, implementation, communication and follow-up. Under normal circumstances, on-site monitoring is conducted at least once a year. However, if the activity or program is considered to have a high-risk of non-compliance, a more frequent monitoring schedule may be developed based on these factors and the nature of the activity or program being performed. High risk programs may include housing rehabilitation, economic development or acquisition, multiple activities or programs undertaken by any subrecipient or city department for the first time, and programs undertaken by an agency or department with a history of staff turnovers, reporting problems, or monitoring findings.

Monitoring provides a basis for assessing a program's operations and identifying problems. A secondary goal of monitoring is to obtain ongoing data for use in determining program achievement. Evaluations summarize monitoring findings and program goals, and they measure progress toward those goals during the provision of services.

Through PY 2017, the Environmental and Neighborhood Services Department had the responsibility for overall CDBG performance and Consolidated Plan compliance, including the performance of its subrecipients. The Department partners with and coordinates the monitoring activities with the contract consultants. Clear record keeping requirements for programs is essential for grant accountability, and the responsibility for maintaining many of the records is assigned to the subrecipients and city departments. This includes responsibility for documenting activities with special requirements, such as necessary determinations, income certifications or written agreements with beneficiaries, where applicable.

The contract consultants and city staff host mandatory meetings and workshops for all subrecipients prior to the signing of subrecipient contracts. These workshops provide information about desk reviews, the monitoring process, the record-keeping and monitoring forms, compliance issues and schedules for reporting. Before actual monitoring begins, a pre-monitoring email and letter are sent to the designated person(s) at the subrecipient agency or city department to discuss the overall expectations, information to be viewed and the time frame for site visits.

The city staff and consultants conduct site visits of the activities or projects of each subrecipient or city department. The monitoring process consists of the monitors examining time records, client files, financial records, equipment and machinery where applicable. The procedure for conducting the monitoring consists of the following:

- Each subrecipient or city department is notified, in writing and via email, of a date, time, place and information to be viewed and discussed.
- A conference is held with a Board Member, Executive Director, Department Head and/or staff persons working with or salaried through the program or activity being funded.
- The actual monitoring visit is conducted by completing the monitoring interview forms, viewing documentation and if applicable, viewing rehabilitated sites, where appropriate.
- Monitoring visits conclude with persons attending the entrance conference being advised of possible deficiencies, if any.

A monitoring letter is transmitted advising of the monitoring visit findings (which are violations of laws or regulations which can result in the de-obligation of funds) or concerns (which could result in a finding if not properly corrected) and indicates that the subrecipient should address any findings and/or concerns within thirty (30) days.

The monitoring visits also allow city staff and consultants to discuss solutions to possible problems that may have occurred from past experiences with a particular subrecipient or city department. The consultants and city staff are also available to meet one-on-one with subrecipients throughout the year as need arises.

During a monitoring visit, the monitors have the right to view any and all files that are related to a particular program or activity that is being funded with CDBG funds.

Monthly cost control and client summary documentation is due from each subrecipient on or before the 15th of each month. Copies of invoices, canceled checks, etc. are requested as documentation along with the cost control and client summary documentation. Continual

delays in the submissions of these reports may affect this grant allocation and future allocations.

Any subrecipient that receives \$750,000 or more in federal funds in one (1) year must have an independent audit performed which complies with the OMB Circular A-133 Single Audit Act.

The City of Sugar Land's CDBG program must meet all requirements set forth by the U.S. Department of Housing and Urban Development and the Office of Management and Budget. The City conducts an independent audit annually to ensure that CDBG funds are used in accordance with program requirements.

Citizen Participation Plan 91.105(d); 91.115(d)

Describe the efforts to provide citizens with reasonable notice and an opportunity to comment on performance reports.

The CAPER was available for citizen review and comment during the period of November 15, 2018 through November 29, 2018, and a public notice to that effect was posted in the general circulation newspaper on November 14, 2018. In addition, the public notice was also posted on the public bulletin board at City Hall and on the City's website. A copy of the newspaper notice is included within the Attachments.

The City also added an advertisement on the municipal television station; this advertisement was in print as well as audio for those individuals with hearing or visual disabilities. The municipal television station can also be accessed on the City's website for those individuals who do not subscribe to cable television services. In addition, the City's website has a tool that allows for the translation of text into several languages for non-English speakers. The City of Sugar Land received no comments or citizen complaints during the required comment period.

During the program year, the City hosted two public hearings, including one that invited local nonprofits, regarding the upcoming year's proposed funding allocation and posted the Annual Action Plan for public review and the receipt of comments for at least thirty days. During the development of the Annual Action Plan, City Council members are briefed on staff's recommendations for funding and provide their input and considerations. The funding recommendations are brought before City Council at a regularly-scheduled City Council meeting as is the Action Plan upon conclusion of the 30-day public comment period. During City Council meetings, residents are afforded the opportunity to speak on any agenda item, including the CDBG program. The City Council meetings are also televised live and repeated throughout the week on the municipal cable channel. If residents do not have access to the municipal cable

channel, they can also view the City Council meetings on the City's website.

CR-45 - CDBG 91.520(c)

Specify the nature of, and reasons for, any changes in the jurisdiction's program objectives and indications of how the jurisdiction would change its programs as a result of its experiences.

During Program Year 2017, the City of Sugar Land developed and executed the fourth year of its Annual Action Plan for the current five-year Consolidated Plan. With one year remaining as part of the Consolidated Plan, the City of Sugar Land is not making adjustments or changes to the program objectives. As the City works through PY 2018, the City will assess current needs as well as available service providers to determine the likelihood of meeting identified objectives.

Does this Jurisdiction have any open Brownfields Economic Development Initiative (BEDI) grants?

The City of Sugar Land does not have any open Brownfields Economic Development Initiative grants.

[BEDI grantees] Describe accomplishments and program outcomes during the last year.

The City of Sugar Land is not a BEDI grantee.

Annual Accomplishments

Years	Accomplishment Narrative	# Benefitting
2017	Of the eight (8) families that received assistance, three (3) were moderate income, and five (5) were extremely low income. Over Three quarters of the families assisted are elderly, disabled, or a single female head of household and often are in need of modifications to their homes to allow for greater accessibility and the homeowners ability to age in place. This is reflective of the City's desire to provide services to families with the greatest need for assistance.

**Notice of Release for Public Review and Comment
City of Sugar Land Program Year 2017
Consolidated Annual Performance and Evaluation
Report (CAPER)
Community Development Block Grant Program**

The City of Sugar Land, Texas has prepared its Consolidated Annual Performance and Evaluation Report (CAPER) of the Community Development Block Grant (CDBG) program for the period of October 1, 2017 through September 30, 2018. Pursuant to 24 CFR 91.520, the City will submit the CAPER to the U.S. Department of Housing and Urban Development (HUD) by December 29, 2018. The purpose of the CAPER is to provide the City of Sugar Land with an opportunity to annually evaluate its overall progress in carrying out priorities and objectives identified in the City's HUD-approved Consolidated Plan and to report the progress to HUD and the citizens of Sugar Land.

The City of Sugar Land actively encourages ongoing citizen participation and feedback. All residents are invited to comment on the CAPER by mail or fax during the period of November 15, 2018 through November 29, 2018. A draft of the CAPER may be found on the City website at www.sugarlandtx.gov and in the Office of the City Secretary, City of Sugar Land, City Hall, 2700 Town Center Boulevard North, Suite 122, Sugar Land, Texas 77479. Residents may send comments to the City of Sugar Land Environmental & Neighborhood Services Department at P.O. Box 110, Sugar Land, Texas 77487 0110. Residents may also fax comments to the City at (281) 275 2465. Any comments received will be forwarded to the regional HUD office.

In compliance with the Americans with Disabilities Act, this facility is wheelchair accessible and accessible parking spaces are available. The City of Sugar Land will provide reasonable accommodations for persons with disabilities needing auxiliary aid, service or other accommodation. For more information concerning the CAPER report, the CDBG program, or to request special accommodations, please contact the City of Sugar Land Environmental & Neighborhood Services Department at (281) 275-2172.

Help for an Overactive Bladder

Many adults suffer from an overactive bladder. This condition is characterized by the sudden urge to urinate. This may lead to an involuntary loss of urine (incontinence). This is a problem caused by the inability of the bladder to store urine properly. Overactive bladder can disrupt a normal lifestyle and cause embarrassment. Classic symptoms include waking up more than once in the middle of the night to urinate, frequently urinating as much as eight times a day, and experiencing difficulty holding urine in the bladder when the urge to urinate occurs. Urge incontinence is a term used to describe the symptom of loss of bladder function immediately following a sudden, urgent need to urinate. People who suffer from certain conditions like kidney disease, diabetes, Parkinson's disease or stroke are more likely to experience an overactive bladder.

Oxybutynin (*Ditropan*), tolterodine (*Detrol*), and fesoterodine (*Toviaz*) are anticholinergic medications that help treat overactive bladder. In severe cases of overactive bladder, onabotulinumtoxinA (Botox) has been injected into the bladder to help the bladder store urine by causing the muscle to remain in a paralyzed state for a short period of time.

Child Advocates of Fort Bend announces neighborhoods for 2018 Christmas Home Tour

From staff reports
FOR THE FORT BEND STAR

"Twenty-seven years ago, a group of volunteers, many of whom are still involved, opened their homes, decorated them for Christmas, baked some cookies and charged admission in an effort to keep Child Advocates of Fort Bend's (CAFB) doors open," said Lisa Moore, Child Advocates of Fort Bend's development officer and event chair.

Thanks to those generous ladies and many others who have participated through the years, this event not only kept the doors open, but it has allowed the agency to increase its programming and staff in order to meet the needs of the Fort Bend community.

CAFB has announced that

five generous homeowners in Sienna Point, Sienna Plantation, Alkire Lake, Lakes of Williams Ranch and a historic home in Richmond are planning to be on the Home Tour on Dec. 7 and 8.

"Homeowners are so special to us - we wouldn't have a tour without them," Moore said. "The addition of two new neighborhoods (Sienna Point and Richmond) is what keeps the Home Tour fresh. Each year we are able to showcase an assortment of neighborhoods, displaying the variety of Fort Bend County."

Nationally, one in four girls and one in six boys will be sexually abused by the age of 18 and it is estimated that only 1 in 10 ever tells anyone.

"The number of children and families served by our Children's Advocacy Center (CAC) increased 25 percent in 2017 alone and has increased 58 percent in the last five years. In addition, as of Aug. 31, we've conducted more forensic interviews for children who have made outcries of abuse than in all of 2017," stated CEO Ruthanne Mefford. "By sponsoring or participating in the Home Tour, you can help us ensure that all child victims of abuse get the therapy and healing services they desperately need."

The Christmas Home Tour features private homes in Fort Bend County beautifully decorated for Christmas. One ticket allows entry to all homes during tour hours. The Tour runs Friday, Dec. 7, from 10 a.m. until 4 p.m. and 6 p.m. until 9 p.m. and Saturday, Dec. 8 from 10 a.m. until 4 p.m. Sponsorships are now available. Sponsorship Opportunities range from \$100 to \$15,000. To become a sponsor or to volunteer, visit www.cafb.org/events/home-tour/ or contact Lisa Moore at 281-344-5108 or lmoores@cafb.org.
