

Fire Truck Tours

- Must have 1 adult per 3 children under 13.
- Chaperones remain responsible for children.
- CDC Guidelines on masks and social distancing to be followed.
- **Visits can be onsite or at fire station - limited to station bays and outside of fire trucks.**

Smoke Detector Installation

- Sugar Land Fire - EMS will provide up to 2 battery operated smoke detectors or smoke detector batteries to owner occupied residences.
- Ceilings can be up to 10 feet in height (ceilings over 10 feet will need a fire alarm company or electrician for installation).
- SLF-EMS will only install battery operated smoke detectors. For hard-wired detectors you will need to contact your alarm company.
- Rental property smoke detectors are the responsibility of the home owner or landlord

Special Event Drive Bys

SLF-EMS continues to provide special event or school drive bys.

SLF-EMS apparatus remain in service for 9-1-1 responses during all community event requests. They may arrive late or have to leave early. If they have to leave, please give them 15 minutes before canceling. To reschedule, please resubmit community event request form.

Fire Extinguisher Training

- SLF-EMS provides commercial fire extinguisher training during April and November.
- Training is hands-on and all conducted outdoors.
- Fire extinguishers will need to be provided by the requestor for the training; SLF-EMS provides a prop for live fire training.

Requests for any events need to be made at least two weeks in advance.
