ZONING TYPES AND PROCEDURES

The City of Sugar Land regulates land use through zoning, which was adopted soon after the City's incorporation in 1959. Current zoning regulations are included as Chapter 2 of the City's Development Code which was adopted in 1997 and has been amended from time to time since then. A copy of the City's Development Code is available on the City's website at www.sugarlandtx.gov.

Zoning

Zoning is the division of a community into districts, or zones, with different regulations for different districts. Within each district, local governments typically regulate the use of land or buildings, the intensity of that use (regulated by lot size, height limits, and, in some cases, direct regulation of intensity through floor-area ratios or limits on the number of dwelling units per area), as well as height and bulk—or extent—of that use (regulated both directly and indirectly, through requirements that portions of the lot be maintained for yards or setbacks).¹ The City is divided into thirteen (13) standard districts and multiple customized planned development (PD) districts.

Official Zoning Map

The location and boundaries of the various zoning districts are shown on the official zoning map. The Planning Department is responsible for custody and maintenance of the map, in coordination with the GIS Office. The provisions of an ordinance establishing a district, amending a district classification, amending a district boundary, or granting a conditional use permit (CUP), controls over any conflicting information shown on the official zoning map. Sugar Land's zoning map is available online at www.sugarlandtx.gov/sugarland/gis/index.asp.

Land Use Matrix

The Land Use Matrix defines which uses are permitted in each zoning district. Land and structures in each zoning district may only be used for the listed uses specified as a permitted use in that district as shown in the Land Use Matrix. Land and structures in each zoning district may not be used for a use that is shown as a prohibited use in that district in the Land Use Matrix. Wherever the Land Use Matrix shows that a use is allowed in a district with a conditional use permit, land and structures in that district may not be devoted to that use unless a conditional use permit for the use has been granted by City Council. A copy of the entire Land Use Matrix or a copy of the portion applicable in the commercial zoning districts is available online at www.sugarlandtx.gov under the Development Planning webpage.

Rezoning

A rezone involves a change from one official zoning district to another. When a property within the city limits of Sugar Land is rezoned, an ordinance is passed by City Council effecting a change in zoning designation for that property. The Official Zoning District Map is also updated to reflect the zoning change. A recommendation to the Council is given by the Planning and Zoning Commission (P&Z). Council has the authority to approve or deny rezonings. A property owner or the City can initiate rezoning a piece of property. A planned development district (PD) is a type of zoning category with custom regulations. Additional details on planned development district rezonings are contained in Section 3 of this Handbook.

Land Uses in Planned Development Districts

Requests for Planned Development district (PD) zoning shall include a list of permitted uses, which should be based on the most recently adopted uses listed in the Residential and Nonresidential Districts Permitted Uses and Parking Schedule. Amendments to existing PD districts, or submittal of Final Development Plans for properties whereon General Development Plans were approved prior to February 19, 2019, may utilize the most recently adopted land use list in lieu of the previously utilized Standard Industrial Classification (SIC) system. A table converting the SIC system to the Permitted Uses and Parking Schedule Tables (Section [2-71](#) and [Section 2-91](#)) can be found as part of the Development Application Handbook and is located here: <http://www.sugarlandtx.gov/492/Development-Application-Handbook>

Planned Development Districts created between 1997 and February 19, 2019 contain permitted use lists which are based on activities as contained in the 1987 edition of the Standard Industrial Classification (SIC) Manual, published by the Executive Office of the President, Office of Management and Budget. The SIC codes included in the Use Matrix are references to the SIC Manual so that the text description of the listed use may be located.

Conditional Use Permit (CUP)

A conditional use permit (CUP) is a zoning permit that is granted to operate a certain type of business in a specific zoning district. The Land Use Matrix identifies which uses require a CUP in each zoning district. A recommendation to the Council is given by the Planning and Zoning Commission; Council has the authority to approve or deny conditional use permits. A CUP must be approved by City Council before a use requiring a CUP can legally operate at the proposed location. The following are the conditional use permit standards required for approval:

1. Conditional uses are not permitted by right, but shall be considered on a case by case basis for the proposed lot(s) or parcel(s). Application approvals are subject to the discretion of the Council.
2. No application will be approved unless the applicant establishes that the use is appropriate at the proposed location by showing the following:

- a) The proposed use shall be in harmony with the purpose, goals, objectives and standards of the City of Sugar Land's Comprehensive Plan and Future Land Use Plan;
- b) The proposed use shall not result in a substantial or undue adverse effect on adjacent properties, character of the neighborhood, traffic conditions, parking, public improvements, public sites or rights-of-way, or other matters affecting the public health, safety, and general welfare; and
- c) The proposed use will be adequately served by public improvements, facilities, and services and will not impose an undue burden

Rezoning and Conditional Use Permit Process

When a rezoning or conditional use permit application is submitted, Staff will review the request and typically send comments to the applicant on the third Friday after the request has been submitted. However, due to the detail contained in conditional use permit applications, additional review time may be needed. The applicant may be directed to resubmit the corrected materials and additional materials for the Planning and Zoning Commission and City Council, and staff will review them for clearance.

When staff comments have been addressed, the request will be scheduled for a public hearing at a Planning and Zoning Commission meeting. The public hearing typically takes place approximately one month after staff issues have been addressed. The public hearing will be advertised by the City in the official newspaper of the City at least 15 days prior to the first public hearing. All property owners within 200 feet of the site and homeowner's associations within the notification area will be notified by mail, and the public hearing will be published on the City's website. Additionally, a courtesy sign will be placed at the property.

A public hearing will be held by the Planning and Zoning Commission at 6:30 p.m. in the City Council Chambers, unless otherwise noted. P&Z meetings are held on the second Tuesday and fourth Thursday of each month except for November and December, when there is one Tuesday meeting due to the holidays. The purpose of the public hearing is to allow P&Z to conduct a fact finding process. Staff will present the request to the Commission. The Chair will then open the public hearing, and the applicant will have ten minutes to present the request. The Chair will then allow anyone present from the public to speak on the request. The Commission may ask questions to staff and anyone else present at the meeting, but will not vote the same night per the Commission's adopted policies.

At a subsequent P&Z meeting the request will be presented by staff with a recommendation. P&Z will hold consideration and action and make a recommendation to City Council. Only staff will present at this meeting; however, the Commission may direct questions to both staff and the applicant.

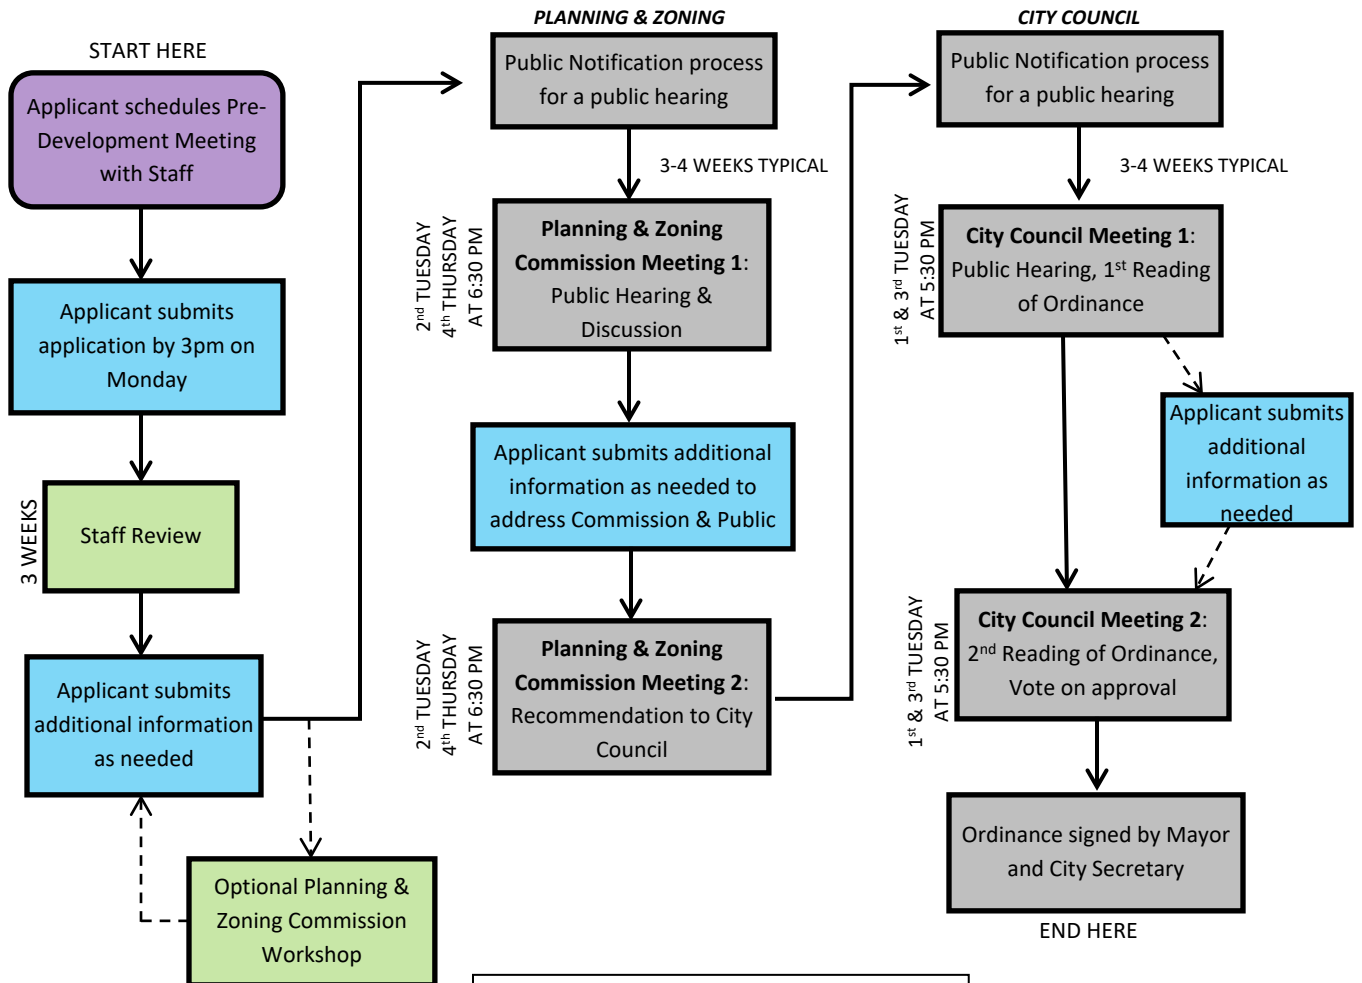

A second public hearing will be scheduled for a regular City Council meeting once the item is

ready for Council review. The public hearing typically takes place approximately one month after P&Z makes a recommendation. Meetings are held on the first and third Tuesdays of each month. Again, in accordance with state regulations, property owners will be notified and the notice will be published in a City paper and on the City's website. Council will conduct a public hearing in the same manner as P&Z. At the same meeting, Council will have the first reading of the ordinance and vote, unless the item is tabled. If the ordinance was approved at the first reading, at a subsequent meeting the Council will hear the second reading of the ordinance and vote again. Following the second reading of the ordinance, the Mayor and City Secretary will sign the ordinance and a copy will be sent to the applicant.
