PLATS

Introduction

When a plat application is submitted, staff will review the request and send comments to the applicant after the initial 2-week review. The applicant may be directed to resubmit the corrected materials and/or provide additional materials for staff to review for clearance. If outstanding review comments remain after the third submittal, the applicant team must meet with staff for a Comment Review Meeting before the fourth submittal will be accepted. This meeting will also be required for all subsequent resubmittals (Version 4 and beyond) if outstanding comments persist. When all staff comments have been addressed, the plat is certified as “filed.” (Note: The 30-day statutory review period for plats commences on the date the plat is certified as “filed.”)

Preliminary, Final, Short Form Final, Replats, and Vacation Plats

The Planning and Zoning Commission (P&Z) is the final authority for platting as per Chapter 5 of the Development Code and City Charter, (other than Administrative Plats) unless a subdivision variance is sought, requiring the approval of City Council. Once staff has certified a plat as “filed,” the plat will be placed on the next P&Z agenda for action.

The City will provide to the applicant a copy of the staff recommendation/report. If staff recommends denial, the applicant has the option to withdraw the plat. The Planning and Zoning Commission will consider the plat and the written recommendation at the regularly scheduled meeting and will either approve, approve with conditions, or deny the proposed plat with reasons. Staff will furnish the applicant a letter indicating the outcome of the P&Z meeting. If the plat is approved, the letter will serve as the “Plat Certificate” under state law. If the plat is denied, the applicant must follow state law and update the plat for the ability to be approvable.

Administrative Plats: Amending Plats and Minor Plats

Staff, by recommendation to the City Manager, may review an amending plat or minor plat for compliance with Section 5-15 or 5-16 of the Development Code in accordance with state law. When all comments are addressed and staff approves the amending or minor plat, the City Manager and Mayor sign the plat for recordation. Staff may elect to present the amending plat to the Planning & Zoning Commission for approval or denial, as in the case of other plats. The City staff will not disapprove an amending or minor plat. If the City does not administratively approve the plat, it will be referred to the Planning and Zoning Commission for action under Chapter 5 of Sugar Land’s Development Code and Chapter 212 of the Texas Local Government Code.

Extension of Approval

Per the Development Code, preliminary plat approval expires if a final plat is not approved after one year. A final plat expires after one year if it is not recorded in the Fort Bend County plat records. The Commission may grant an extension of up to one year. To request an extension, the applicant must submit:

- a) Plat application,
- b) Letter of request 30 days prior to expiration date of approved final plat including reason for the extension request, and
- c) A PDF of approved plat.

Plat Recordation

Following the approval by the Planning and Zoning Commission or the City of a standard plat, amending or minor plat, the procedures on page 27 apply to recordation.

Please be advised that any incomplete applications submitted to the city for review will result in an extended review timeline. Additionally, staff reserves the right to return any incomplete applications back to the applicant.
